- Moderately negative: 46.0%
- No real impact: 40.9%
- Positive impact: 5.1%

Impacts already noticed by Taranaki businesses:

- Customers - decreased spending and/or changes in their expenditure patterns, lack of confidence, ability to pay.
- Projects being put on hold/cancelled.
- Flow-on effects - to housing, construction, job security, the health of people.
- International impacts - those who exported and/or imported; those with international owners.
- Sales – some 10%-20% decline although some reported increases.

Should actions be taken at a:

National level

Regional level

■ Yes: 76.3%
■ No: 23.7%

■ Yes: 56.9%
■ No: 43.1%

What action should be taken?

- Ensuring public monies spent wisely – prudently managed and invested in areas which contributed to confidence and growth.
- Government policies - assist industry growth and retention (lower tax and interest rates, help businesses and cut red tape).
- Policies and assistance packages such as bank guarantees.
- Effective communication and coordination to businesses.
- Proactive leadership - being responsive and positive
- Positive promotion of the country and region.
- Taranaki companies felt the active marketing of the region should be continued and local leaders should be commended for initiatives.
- A lot of pride about how Taranaki is dealing with the financial situation, and that the region was better placed than many.

Are you taking actions in your own business?

What action in own business?

- Monitor expenditure and manage budgets prudently
- Reduce stock levels.
- Place projects on hold.
- Staffing - downsizing, doing jobs themselves, not replacing employees when they leave, reducing hours.
- Reviewing credit policies, outstanding accounts.
- Increasing marketing, diversifying, seeking new opportunities
- Managing existing clients to best effect.
- Service improvements.
- Keep spending - focus spending on growth.

When do you expect economic recovery?

The last words...

- *This is new territory for all.*
- *Stop the media reporting doom and gloom.*
- *This is a long term global melt down. The power base is changing.*
- *The new Government should change things.*
- *We are lucky. It could be a lot worse.*
- *To all New Zealanders - "chin up" - don't look back or grumble - move ahead.*
- *Keep up the good work!*

The last words...

- Avoid the global crisis becoming a self-fulfilling prophecy
- Maintain a positive outlook
- Keep up investment in infrastructure
- Keep investing in promotion
- Keep up the momentum

The last words...

Based on the region's industry structure, we project the Taranaki economy to grow at a faster rate than nationally over the next 20 years.

The Taranaki region is benefiting from a fundamental shift in the global economy. The region, with its agriculture, food processing and energy focus, is well placed to take advantage of this shift.

Employment is expected to grow by 2.0 percent per annum to 2026, while labour productivity gains could see GDP grow by 4.7 percent per annum.
